

Emergency meeting of the Marple Township Board of Commissioners called in response to COVID-19

In response to the COVID-19 pandemic, I would like to advise that Marple Township is and has been undertaking a diligent effort to ensure that our community is doing everything possible to maintain the health, safety and well-being of our citizens.

This preparation is currently an intense level of coordination between our various departments along with County, State and Federal guidance to ensure that we are ready to mitigate the potential upcoming hardships.

We held an emergency meeting of the Board of Commissioners 11am, Thursday, March 19th, via teleconference call. The purpose of this meeting was to communicate the extremely important action and steps that Marple Township is undertaking to handle the situation in front of us including declaring a state of emergency to better accomplish the same. The Board of Commissioners unanimously adopted emergency declaration resolution a copy of which is posted on the Township website.

No other township business was discussed at this meeting.

Again, on behalf of the entire Board of Commissioners, Administration and Township Staff, we will continue to monitor, communicate, facilitate and appropriately react to this unprecedented time in our history.

Sincerely,
Joseph Rufo
President, Board of Commissioners

Larry Gentile
Township Manager
